

Jyoti Kumari

 [jyoti21266](#) |  [LinkedIn](#) |  jyoti21266@gmail.com |  +916362242029

SKILLS

Programming Languages - JAVA, Python, C++
Databases - MongoDB, MariaDb, MySQL, Redis
DevOps Tools - Apache Airflow, Kong, Kubernetes, Docker
Tools - Postman, Git, ElasticSearch, Kibana, Grafana, Prometheus
Frameworks - FastApi, Spring Boot, Hibernate, JAX-RS, Gatling, GraphQL
Problem Solving - Data Structures and Algorithms, System Design

WORK EXPERIENCE

1. Software Engineer-I - Rakuten India August 2023 - present

- **Developed 4 APIs to automate eKYC** process for Rakuten Cash, eliminating third-party dependency and reducing eKYC completion time from **4-5 days to under 10 minutes**.
- Worked in Payments Team, developed an etcd-driven database region switching system, ensuring $\leq 2s$ failover latency for **10+** critical databases during outages.
- **Designed and deployed 25+ Apache Airflow DAGs**, automating batch processing tasks and improving operational efficiency by 20%.
- Led a successful migration of enterprise applications from **Java 8 to Java 21** and **Payara Micro 5 to 6**, ensuring compatibility, improving performance, and enabling platform support.
- **Test Automation Suite:** Designed and developed an automation suite using Chai for functional testing and Gatling for performance testing, targeting a dataset of 5 million records to ensure system reliability and scalability.

Tech stack: Java, Spring Boot, Redis, Airflow, Kubernetes

2. Software Engineer Intern - Rakuten India Feb 2023 - July 2023

- Built a Data Syncing Platform, **automating MySQL-to-MariaDB data migration** for custom date ranges, **saving 32%** of employee time.
- Developed 'Test Kanri,' a **TestRail-like web app**, replacing third-party tools and saving its licensing costs for the team.

Tech stack: Python, Fastapi, Strawberry, GraphQL

3. Software Engineer Intern - Dell EMC April 2022 - June 2022

- Automated qTest testcase updates via Python, **increasing update efficiency by 40%** and reducing manual errors.

EDUCATION

Bengaluru, India **University Visvesvaraya College Of Engineering** **Aug 2019- July 2023**
B.Tech. in Information Science and Engineering. **CGPA: 9.42/10.**

Main coursework: Data Structures, Design and analysis of Algorithms, Computer Architecture, Database Systems, Operating Systems, Software Engineering, Computer Networks.

ACHIEVEMENTS AND CERTIFICATIONS

- **5-star** holder in problem solving on [HackerRank](#)
- AIR-52 in Rakathon Season2 organised by Rakuten India
- July 2025 **Monthly Best Performer Award Winner**
